About The Course

This course has everything required for the RPS Certification, plus all the advice and information that we've found and used in our own experience!

The role of an RPS is primarily leadership. We are often direct supervisors of CPRS's or CPRS's in training.

As such, we get into what it takes to be a good teacher, leader, role model, and more!

With this course, you'll be able to transition into the role of RPS naturally. You'll be armed with the information and confidence that it takes!
